Meditations (VI) for pan flutes and keyboards

2019

The work consists in one hundred short pieces for a pan flute and an equal number of short pieces for a keyboard instrument, like piano, toy piano, harpsichord or celesta. Keyboard pieces can be played either with both hands or with only one - the score never requires both hands at the same time. The pieces can be performed in any combination on any number and combination of said instruments, up to at most three pan flutes and three keyboard instruments. The musicians play without a common time. Intonation need not be agreed upon. Duration is free.
